MISSISSIPPI CHESS LETTER

Vol II

Number 2

Sept 74

President: Bill McDonald, 3587 Lanell Lane, Pearl 39208
Vice-President: Jerry Krouse, Box 1003, Natchez 39120
Treasurer: Gordon Scott, 5552 Crepe Myrtle, Jackson 39206
Parliamentarian: Judson Farmer, 1229 Lynnwood Dr., Jackson 39206
Editor: Warren Porter, Box 12222, Jackson 39211

It must be tiring to find these pep talks in nearly every issue of the MCL, but with rising costs of everything and the Fischer boom drifting further into our past a lack of enthusiasm and new members has become evident. To keep you from turning the page we will insert some good news: If the MCA can incorporate as a non-profit-making organization with over 200 members, we could be eligible for greatly reduced postage rates (about 2¢ per issue). Currently we have about 180 members.

One of the duties of our Vice-President is tournament coordination, i.e. scheduling tournaments so that they will not interfere with each other or major tournaments outside the state. As he explains in his column, not one organizer replied to the letter he sent suggesting various dates. It would be all too easy to put the blame on the local club presidents or other organizers, except that the organizers are only representatives of the club members. We ask the club members to ask your president what you could do to help, such as find a tournament site or get in touch with the local news media. The tentative schedule Krouse suggested is below; ask your club leader if the dates suggested are OK, if not they can be freely switched.

Jan 11-12 2nd Dixie Open, Starkville FRIM
Feb 1-2 ?? Open, who wants it??
Mar 1-2 ?? Oxford or UM Open??
Apr 5-6 ?? Vicksburg Open??
May 3-4 ?? Laurel Open??
Jun 7-8 ?? Miss-Lou at Natchez??
Jul 5-6 ?? Gulfport-Biloxi Open??
Aug 2-3 ?? Championship ??

Holding a tournament is a team-work effort. For example the Planning for the 1969 Paul Morphy Open in Baton Rouge started in February. Everyone knew who would get the playing site, handle registrations, direct, and publicize it well in advance.

The MCA will help organize and run tournaments in any way possible if asked. Prizes and entry fees are normally at the discretion of the host club. The club should determine who is likely to play in their tournament and plan accordingly.

It makes no difference that your club doesn't have Ed Edmondson or Martin Morrison among its members. It has you doesn't it--who else does it need?

MCA RATINGS

In the July issue of CL&R, Aparid Elo presented an article on ratings for the USCF as a whole. Below is a table of ratings of MCA members computed from the July rating supplement.

Range	% MCA	% USCF
Under 500	0.	.49
500-599	0.	.54
600-699	0.	.93
700-799	0.	1.53
800-899	0.	2.52
900-999	1.92	4.82
1000-1099	3.85	6.52
1100-1199	8.65	9.92
1200-1299	18.27	14.12
1300-1399	16.35	14.80

Average Rating 1426 1362

It comes as no surprise that we don't have any masters; after all, Louisiana couldn't support their masters for any length of time. We do have an expert in the state now that one of our outstanding chess journalists did quite well at the La. Professional Championship. The percentages of players in the 1600-1899 range correlates fairly well, but in the 1200-1599 range the MCA is above average while we don't have as many players under 1200 as the national average.

The distribution of players under 1599 is tied to the fact that our average rating is 64 points above the USCF average. In areas where there are many school-age tournaments and chess is a lot more popular, kids start playing USCF chess almost the same week they learn the moves. Also, very few tournaments in this area have "beginner" or "novice" sections. Unless a player can wipe out against a field rated at 1000, a 600 or so rating is impossible.

The Elo article also mentioned the tremendous growth of the USCF membership in the past five years. Mississippi has been no exception. In June 305 names were on the USCF mailing list, 190 of which are in the MCA. By contrast, Jerry Krouse in 1970 suggested that the La. Chess Assn. and the MCA merge. At that time there no other active organizers in the state. It never was done, but the Miss-Lou Open in Natchez that year required LCA membership of residents of these states.

Finally the article discussed rating deflation during this period. Because of Fischer we have had a tremendous influx of new members, and like beginners of any sport, most of them started near the bottom. Although some tournament veterans have lost rating points to underrated improving players, a system of bonus points adds about one point to the rating pool for each game that is played. The relative newcomers can rest assured that when they improve, their rating points will be waiting for them.

GAMES FROM THE
STATE CHAMPIONSHIP

All participants in the 1974 State Championship were invited to annotate as many or as few games from this event as they wished. Jerry Krouse picked the "as many" option and we are grateful to him for his effort and fine notes to his games. In keeping with the all too prevalent spirit of the times, the other contestants chose the "as few" option. Needless to say there are no games annotated by both players.

 60 P-B6+ K-B2 // The remaining moves were
 recorded on the back of a scoresheet that
 was misplaced. With Bishop vs Knight
 on an open board, if White has a win
 it will be very difficult. One line
 which White must avoid (or hope
 Black doesn't find) is 61 N-N5+ K-N1
 62 P-B7+ K-N2 63 K-K6 (threat K-K7

 only try to buy time with his
 Knight, but it won't be enough.)
 68 K-B6! (There are several
 shortest routes to the Pawn,
 this one gives Black the most
 problems.) 68 .. KxN 69 P-R5
 K-K5! 70 K-N7 (or 70 P-R6 K-Q4
 71 K-N7 K-K3 72 KxP K-B2) K-B4
 71 KxP (or 70 P-R6 K-K3 etc.)
 71 ... K-B3= for if K-N8 K-N4
 winning the Pawn. Other moves
 are answered by K-B2.

However, there is a win for
 White in this line 61 N-N5+
 K-N1 62 K-K6! (instead of P-B7)
 B-B5+ 63 K-K7 B-N6 (too bad
 Black can't be playing K-N2
 on this move) 64 P-B7+ BxP
 65 NxB K-N2 66 P-R5+- Black
 could instead play 61 .. K-B1
 but after NxP-N5-K4-Q6 and
 K-B4-N5 the RP would be free
 to advance. In view of all
 this it may be that Black's
 final error was 60 .. K-B2
 instead of 60 .. K-B1 so he
 could answer 61 N-N5 with
 B-Q6.

Notice to would-be annotators:
 Never expect your first draft
 to be your final one. I did
 and must have used a gallon of
 Liquid Paper as my evaluation
 of this position changed from
 draw to win to draw to win. By
 the way Woodard did win.

KANDID KROUSE

by Jerry Krouse

In this column, I have a mixed bag of rambling thoughts and comments that I would like to share with you.

Mississippi support of the Mississippi Open in Natchez was poor to fair. Louisiana support was almost nonexistent. In either case there was no excuse for not supporting this tournament by attending. For the Mississippians, it was one of the most prestigious tournaments of the year. Not only was it an official qualifying tournament, but it also equaled the Miss-Lou Open in the amount of prizes given, the championship was being held in conjunction, which meant that some of you had a better chance to win a big tournament, and the playing site was beautiful. To satisfy the Louisiana player's desire to be known as professional chess players (idiotic in the extreme), there was ample cash awards.

However, none of these alluring come-ons did the trick, and the tournament lost money. The fact that money was lost, is not what rankles me; our local club's account had sufficient funds to cover the loss, and I have always stood ready to subsidize chess out of my own pocket. What hurts, after having to do all the advertising, promoting, and fund raising myself, is to be rewarded for my efforts by a slap in the face from the MCA membership and the Louisiana players, that we usually count on in Natchez.

The cumulative effect of all this is, that if one makes the mistake of sitting down and analyzing things, it no longer seems worthwhile to work your fingers to the bone to organize a tournament that may or may not be supported by our players. Being the glutton for punishment that I am, I will probably still organize these tournaments next year, but it is not as certain as it could have been.

To those that did support, not only Natchez tournaments, but all MCA tournaments, my thanks!

On to another matter. I recently sent out mailings to all the responsible tournament organizers in the state to try and get some reason in to the

scheduling of tournaments for next year. Last year we had some bad conflicts that hurt attendance at our tournaments. I am sad to report to you that none of these responsible people of chess responded to this effort. Perhaps it is too early, or they don't plan any tournaments, or they don't care, or they are too lazy. But I will tell you this: the MCA is not a magic machine that runs by itself or by the efforts of only your elected officers. It is nothing without support at tournaments or without tournaments to attend. I see signs of terminal cancer, and YOU are the doctors!

My congratulations to our new state champion, Pete Crowder. I never dreamed that after his poor showing in the qualifying tournaments, and barely squeaking into the play-off, he would be a factor to contend with. I played the most passive game of my career, and he exploited it well. After my loss to Crowder, the tournament was over for me, my will to kill having been considerably sapped. Our individual score now stands at 1-1, and never having liked ties, I challenge him to a match later in the year to settle the matter.

Andy Campbell impressed me as a mature young man. He told me he did not expect to get much better at chess, and I asked why? He replied, "I have too many other things to do." Chess cannot dominate your life.

Farris is much better than his score indicated. He plays strong, solid chess, without knowing the openings or working at chess. His weakness is that sooner or later he is prone to make one decisive mistake.

Woodard is solid as a rock, and will have to be contended with in the future. In two games with him I have found no visible flaw. He seems to have the will to win.

Stan Perkins lost a piece in the opening against me, and then fought well enough to put a gray hair or two in my head. Like Woodard, Stan seems to have the makings, if he has the time.

For myself, I played some openings that weren't my style, had a little bad "luck", and played some determined opponents. I hope to improve next year.

Sicilian Defense, Natchez 1974.

courage Black from playing P-N5.
Since he plays .. P-N5 only nine

6 P-QR3 is not best.) 6 .. P-K3

previous move White places his
Knight on a poor square and it stays
out of the game for the next ten
moves.) 13 .. P-R3 14 P-B4 P-B4

Q-B3: (Apparently best and I suggest
that anyone interested work out the
variations.) 18 N-Q5 (Unsound but
understandable. If the Knight moves
to any other square, the KP falls
and White loses the initiative.)

First of all an apology to everyone who tried to work the problem in the last issue--the diagram was incorrect. I was not on hand to take the issue to the printer and before it got there a bishop fell out. The educated guess fell short.

The white Bishop at d8 belongs at d4. Other pieces remain the same. The position is WKd1, WBd4, c8; WN h3, h4; WRa2; BK h1, BP h6, e3.

To revise the contest, a free BP to an MCA tournament (your choice) before July 75 will be awarded to the correct entry with the earliest postmark. 2nd prize will be a \$ price entry fee.

In case of a tie for first prize, two free entries will be awarded equally among all correct entries tied for the earliest postmark. Any or all entries postmarked before the following date (approximately 5 days after this issue is mailed) will be tied for earliest postmark.

SEP 30 A.M.

The conditions of the problem are White to play and mate in 10 moves with all white pieces returning to the same positions they occupied at the beginning of the problem in the final position.

Andy Lockett told me not to try to work the following problem, just sit back and enjoy it. Check only one Black King at a time and mate all of them simultaneously on White's 12th move. Solution is inside. Composed May 1968
